Dear Sir,

Please be advised that the following switchgear has been included in our 'Electrical Equipment Suppliers List'. This inclusion will be reviewed at the time of requisite specification revision or after 5 years whichever is the sooner.

Category – 'LV, motor control centre, distribution'

PC 2000 / MCC 2000 Low Voltage Switchgear with GE Multilin intelligent motor control system

Manufactured in Italy (Milan)

The switchgear complies with the requirements of DEP 33.67.01.31-Gen. (November 2006), Low Voltage Switchgear and Control Gear Assemblies (Amendments/Supplements to IEC 60439-1), **with the attached deviations.**

You must send a copy of this letter and the attached list of deviations with all your future quotations for Shell companies.

You are obliged to notify us in case of changes to the design of the above-mentioned equipment. We will inform you whether a re-validation will be required. Failure to report design changes may result in deletion of your product(s) from our list.

Yours faithfully,
Shell Global Solutions International B.V.

Paul Donnellan
