Federazione ANIE

Federazione ANIE is the Confindustria member representing the electrical and electronic companies operating in Italy.

With 1,200 member companies, ANIE includes strategic players to deliver significant support to the growth of the national industry network, so contributing to its success on international markets.

Federazione ANIE plays a significant role in the development of the electrical and electronic marketplace, striving to ensure transparent regulations. ANIE is an active and well-established interlocutor of the stakeholders who influence framework policies in Italy and abroad, and it offers to its members a platform where they can interact with the industrial community.

Federazione ANIE cooperates with major Italian and international technical organizations. Among the European are: CEN (European Committee for Standardization – www.cen.eu), CENELEC (European Committee for Electrotechnical Standardization – www.cenelec.eu), ORGALIME (The European Engineering Industries Association – www.orgalime.org).

Federazione ANIE at Middle East Electricity 2012

Federazione ANIE is joining this edition of Middle East Electricity with a collective of 19 exhibitors, representing the excellence of Italian electrotechnical and electronics technologies in Power, Lighting, Automation, Cabling and Renewable Energy.

ARISTONCAVI GULF DISTRIBUTION JLT

Manufacturer of electric cables insulated with rubber, and thermoplastic special compounds, for power distribution, signalling and "for special applications".

The product range includes CABLES FOR LOW VOLTAGE POWER DISTRIBUTION (up to 0.6/1 kV); CABLES FOR MEDIUM VOLTAGE POWER DISTRIBUTION (up to 18/30 kV); CABLES FOR SPECIAL APPLICATIONS (Low and medium voltage cables especially as Cables resisting fire and high temperature, Cables resisting heavy-duty conditions and Cables resisting to liquids).

H07RN8-F Flexible rubber cable for permanent immersion in water

NSSHÖU Flexible rubber cable for heavy duty application

DRINCABLE® No-toxic rubber cable for immersion in drinking water

URSUS® Flexible rubber cables for container terminal cranes

BORRI SPA

BORRI, founded in 1932 in Bibbiena, Italy, is a leading manufacturer of power electronic equipment for industrial applications, operating in both domestic and export markets.

The company has 80 years experience and thousands of Uninterruptible Power Systems (UPS) installed worldwide. The company offers a full line of AC and DC power systems, power conversion products, power management software, remote monitoring, turnkey integration services and site support.

B9000-B9600FXS - Certified high efficiency UPS - Critical applications

B8000FXS UPS for commercial applications - Compact solution

DC&AC UPS 1400A, 42kVA - Ministry of Elect.ty & Water - Kuwait

CABUR SRL

Founded in 1952, Cabur is the leading company among the national manufacturers of terminal blocks for electrical panels, pursuing a policy of particular focus on installers' needs and offering high-technology solutions. Nowadays Cabur develops and produces, based on its own projects, a wide range of products for the electrical and electronic industry, which are well known for their reliability even in extreme usage conditions. The company is ISO 9001/UNI-EN 29001 (Quality) and ISO 14001 (Environment) certified.

CBC Series screw-clamp terminal blocks

CSF Series switching power supplies for heavy industrial applications

Cabur Solar line: a set of connecting solutions for photovoltaic installations

Marking and identification systems

COELMO SRL

DUCATI ENERGIA SPA

stand 2H12

Since 1926 Ducati Energia has been the leader in the production of Power Capacitors, shaping today's capacitor technology.

Ducati Energia's innovative PPM and PPMh metallised polypropylene films set the reference for this technology, outclassing the obsolete paper/oil and gas technologies in terms of superior performance and reduced dimensions. Constantly driven to quality, environmental engagement and safety, Ducati Energia is fully certified following ISO 9001:2000, ISO 14001 and OHSAS 18001.

**ELEMATIC CABLING SYSTEMS
ITW CONSTRUCTION PRODUCTS ITALY SRL**

Elematic, as a producer of wiring and fixing systems, has been operating in the European market since the late 70's, becoming a leading company in his field. The offer is based on a complete and competitive range of products suitable for many electrical applications. Nowadays Elematic is part of the ITW Group, a worldwide manufacturer of highly engineered products and specialty systems with more than 100 years of history. Elematic: the strength of a great international Group combined with a focused and flexible identity.

Cable ties & Accessories for electrical, automotive and special applications

Pre-insulated crimping terminals and copper lugs

Heat-shrinkable and PVC tubing, spirals, braided sleeves

Light-duty anchors, heavy-duty anchors and chemical fixings

ELVI GROUP

50 years of activity in Industrial Automation and Renewable Energies, providing design, production, testing, installation, commissioning and assistance. Common factors innovation and flexibility, with specific competences:

Elvi: on-off grid Hybrid Power Plants and Industrial Automation

ILB Helios Italia: PV Power Plants and Solar Products

MCM Energy Lab, spinoff of Politecnico di Milano: R&D

Turnkey projects provided as EPC, or supply of individual products.

Solar inverter on-grid and off-grid operation with power range from 20KVA to 250KVA

Building integrated front wall - 40KwP

Almeria - Spain 10,8 MW on ground - 180Wp modules

Conversion and Control Cabinets in Power Houses up to 1000kVA

FIAMM SPA

The FIAMM Group, established in 1942, manufactures and distributes batteries for automotive (starter) and for industrial usage (stand-by, emergency), as well as horns (clacson and sirens), sector in which we are world leaders. FIAMM has a global presence in 60 countries worldwide, with around 3000 employees. Today, the FIAMM Group is also focusing on the energy storage field, with a dedicated business unit. Thanks to the unique battery technology "sodium-nickel chloride" FIAMM SoNick, we are partner and supplier for advanced solutions of both on-grid and off-grid field, as well as for electric mobility.

FIAMM energy oasis®

Sodium-nickel chloride battery

Sodium-nickel chloride battery bank installation

FINDER SPA

1954 – Italy, Piero Giordanino founded Finder SPA. After 50 years as a specialist relay manufacturer it now has a range of over 10,000 products in its catalogue and is truly a global player in its field. Finder products: step relays, light dependent relays, PIR movement detectors, miniature and sub-miniature p.c.b relays, plug-in general purpose and power relays, relay interface modules, timers relay sockets and accessories. Finder has the widest range of quality approvals of any relay manufacturer.

7T Series; Panel thermostat, Heating control Ventilation control

18 Series; PIR movement detector, internal/external installations

39 Series; Relay interface modules, Space saving 6.2 mm wide

General purpose industrial relays from 6 to 30 A

3A15 stand

GHISALBA SPA

Ghisalba designs, develops and produces electromechanical contactors up to 2000A.
Ghisalba today is offering a new range of security products for photovoltaic applications. Ghisalba offer is formed by safety switches for pv installation with remote control up to 500A 1000V DC and complete safety systems made up of safety boxes for the switching and strings control up to 500A 1000V DC.

When you need power Ghisalba start!
AC 3-pole and 4-pole contactors up to 2000A

GH16 4-Pole compact contactor line up to 750A for line change switching

AC and DC contactors line with magnetic or mechanical latch up to 2000A

Contactors for switching DC loads with magnetic blow-out system up to 500A 1000VDC

Lanzini Illuminazione is a leading company in the lighting market since 1960 with an in-depth experience in the lighting sector, producing lighting fittings for industrial, residential, architectural, urban and tunnel applications. The quality of the products is very important: that's why they are strictly Made in Italy. The distribution system as well the sales network are extremely efficient since the goods are exported in more than 70 Countries. The company is certified UNI-EN-ISO 9001:2008 (Vision 2000).

Tolone max 2000W metal halide lamps, professional beam

Faro max 2000W metal halide lamps, asymmetric beam

Kono Up 40W LED high efficiency, roto-symmetric optic

Dubai 2 max 115W LED high efficiency, cut-off optic

M.EL.COS. was founded in Arezzo (Italy) in 1983 and since the beginning focused on the production of Medium Voltage switchgears, Steel Structures, Low Voltage switchgears and outdoor cabinets in rolled section and nowadays the company products are well-known and appreciated. Cooperation is the key action of the company success, in fact only with mutual efforts of project, production and marketing activities, it is possible to satisfy the customer needs strictly related to high volumes, quality, low-costs, and on-time deliveries.

24-36 kV MME Medium voltage air-insulated switchgear with SF6 switch

24-36 kV MS On-load switch SF6 insulated

12-17, 5-24 kV MMC Metal clad type switchgear
